

Usage/Deployment Instruction

Step 1: Open Putty for SSH

Step 2: Open Putty and Type <instance public IP> at "Host Name"

Type "root" as username and "miri@123" as Password.

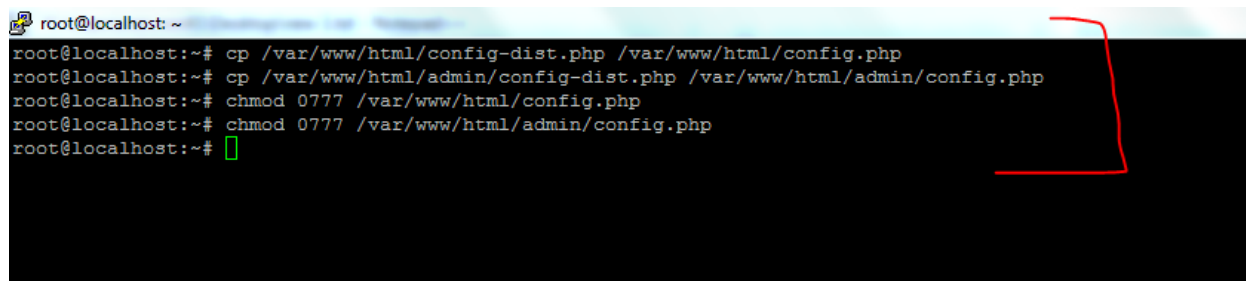

Step 3: Use following Linux command to start opencart:

Command: cp /var/www/html/config-dist.php /var/www/html/config.php

Command: cp /var/www/html/admin/config-dist.php /var/www/html/admin/config.php

Command: chmod 0777 /var/www/html/config.php

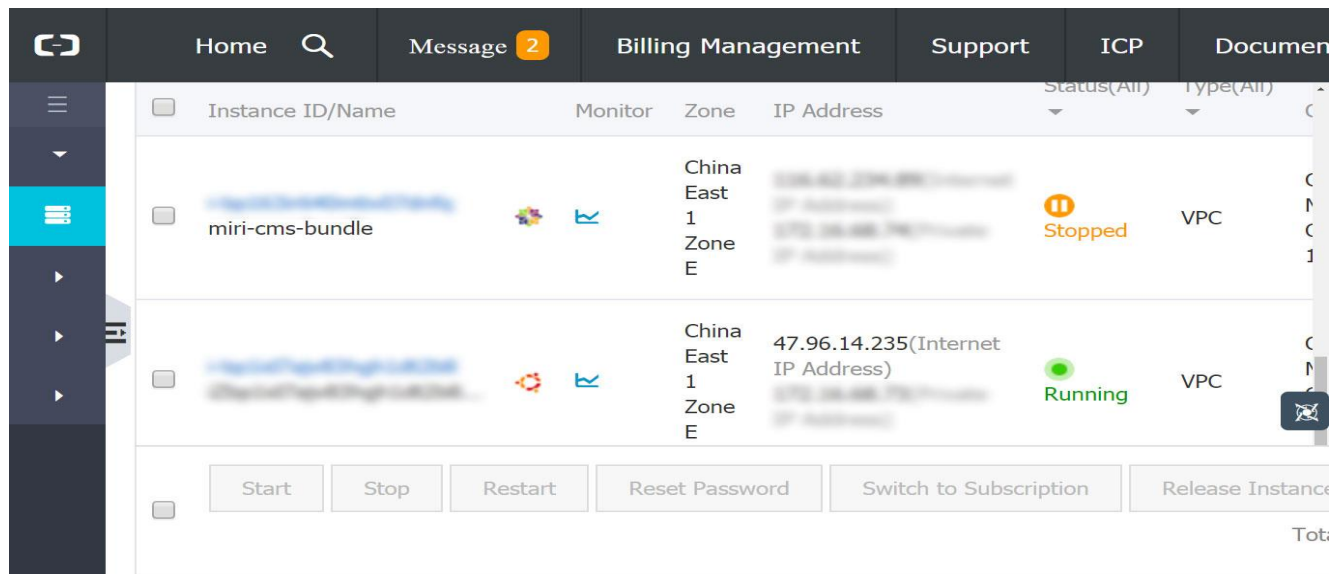

Command: chmod 0777 /var/www/html/admin/config.php

```
root@localhost:~# cp /var/www/html/config-dist.php /var/www/html/config.php
root@localhost:~# cp /var/www/html/admin/config-dist.php /var/www/html/admin/config.php
root@localhost:~# chmod 0777 /var/www/html/config.php
root@localhost:~# chmod 0777 /var/www/html/admin/config.php
root@localhost:~#
```

Use the browser to access the application at <http://<instance ip address>> replace <instance IP address> with the actual IP address of the running instance.

Note: You will get the Instance IP Address as shown in the screenshot below:

Instance ID/Name	Monitor	Zone	IP Address	Status(All)	Type(All)
miri-cms-bundle		China East 1 Zone E	[blurred]	Stopped	VPC
[blurred]		China East 1 Zone E	47.96.14.235(Internet IP Address)	Running	VPC

Start Stop Restart Reset Password Switch to Subscription Release Instance

Step 4: Read License Agreement

The screenshot shows the 'License agreement' step (1/4) of the OpenCart installation. The main content area displays the 'GNU GENERAL PUBLIC LICENSE' text, including the version (3, 29 June 2007) and the preamble. On the right side, there is a vertical navigation menu with 'License' selected, and 'Pre-Installation' and 'Configuration' below it. A 'LANGUAGE' dropdown menu is also visible. At the bottom right, there is a blue 'CONTINUE' button.

Step 5: Check Configuration Settings

The screenshot shows the 'Pre-Installation' step (2/4) of the OpenCart installation. The main content area contains two instructions: '1. Please configure your PHP settings to match requirements listed below.' and '2. Please make sure the PHP extensions listed below are installed.' Below the first instruction is a table with the following data:

PHP Settings	Current Settings	Required Settings	Status
PHP Version	5.6.8	5.4+	✓
Register Globals	Off	Off	✓
Magic Quotes GPC	Off	Off	✓
File Uploads	On	On	✓
Session Auto Start	Off	Off	✓

Below the second instruction is a table with the following headers: 'Extension Settings', 'Current Settings', 'Required Settings', and 'Status'. On the right side, there is a vertical navigation menu with 'License', 'Pre-Installation' (selected), and 'Configuration'. A 'LANGUAGE' dropdown menu is also visible.

Step 6: Configure Database and Admin Details

Host: **localhost**

Database Name: **miriopencart**

Username (for Database): **miriuseropencart**

Password (For Database): **miri2018**

1. Please enter your database connection details.

DB Driver	MySQLi
* Hostname	localhost
* Username	root
Password	
* Database	opencart230
* Port	3306
Prefix	oc_

License
Pre-Installation
Configuration

LANGUAGE ▾

Prefix	oc_
--------	-----

2. Please enter a username and password for the administration.

* Username	admin
* Password	
* E-Mail	

BACK CONTINUE

Step 7: Success Screen. Click on your administrator to access it.

The screenshot shows the OpenCart installation success screen. At the top left, it displays '4/4 Installation complete' and 'Ready to start selling!'. The OpenCart logo is in the top right. A red notification bar at the top says 'Don't forget to delete your installation directory!'. Below this is a large blue banner with two buttons: 'GO TO YOUR ONLINE SHOP' (with a shopping cart icon) and 'LOGIN TO YOUR ADMINISTRATION' (with a gear icon). At the bottom, there are two product recommendations: 'Pilibaba all-in-one solution for eCommerce to China' for \$0.00 and 'Product Import Export Tool - Multilanguage (1.5x and 2.x)' for \$11.99.
