Usage / Deployment Instructions

Step 1: Open Putty for SSH

Step 2: Open Putty and Type `<instance public IP>` at “Host Name”

    Type "root" as user name and “miri@123” as Password.

Step 3: Use following Linux command to start activeMQ

```
$ cd /home/apache-activemq-5.15.8/bin
$ sh activemq start
```

Step 4: Use the browser to access the application at http://<instance ip address>:8161, replace the `<instance ip address>` with actual IP address of the running instance.

Note: You will get the instance IP address as shown in the screenshot below:

Step 5: Click on “Manage activeMQ broker”
Step 6: Enter the following details as follows:

**Username**: admin

**Password**: admin
